FROM THE DESK OF THE RACE STEWARD: RAY CAURADO

Regarding protest at West Wood Race of April 11, 1976. Car 183 DProduction Datsun 240Z was protested for using unmodified nissan Competition struts. IE: Spring bucket were not moved back to stock location as per previous race steward ruling. After measuring Car 183's lower spring seating surface and after measurements were made of Nissian Competition struts the two were found to be identical threfore car No. 183 has been disqualified.

Upon further investagation I have found that the original data supplied to me concerning nissan competition struts was faulty. Several demenisions of the competition struts differ from the deminisions of stock strut. Therefore Nissian Competition struts are no longer legal for Production classes.
