A MESSAGE TO ALL DRIVERS FROM THEIR LOYAL TURNWORKERS

As you may know, TCNW is currently involved in evaluating our "services" as turnworkers and in discovering just what being a "good" worker means. To help us focus on what we did well (such as singlehandedly rescuing 3 Spridget drivers while waving a yellow flag, directing traffic, treating hysteria, and directing dogs and drunks back up the hill), we're asking drivers to elect a Turn Crew of the Week-End. If you feel a particular turn-crew did an extra good job (even if you just like the way they handled your spin-out), here is your chance to let it be known.

After you finish racing for the week-end, we would like you to select the turn crew which, in your estimation, did a heroic job. A ballot will be provided in your registration packets for this purpose. Simply vote by the turn number and leave it with Cindy Dodson, Chief Communicator, at Start-Finish. If no turn stands out in your mind, that's okay. Just don't vote. This is for Seattle races only. We hope you'll help us.

Kathy Dawson, President Turn Crews Northwest

FROM YOUR RACE OFFICIALS DIVISION DIRECTOR

Anyone who has applied for a 1977 ICSCC license and have not yet received it, please call me collect, and I will try to straighten it out. The phone number to call is (206)876-9365, evenings. If you did not send your application to my address (or give to your Area Rep), you might try to re-apply directly to me. The Canadians have really done an outstanding job in becoming licensed this season and I hope to be receiving many applications from those here in the States as well. The first few races have already begun so don't delay. I will hopefully be at each track at least once this season and I am looking forward to meeting as many workers as possible.

BILL DODSON

NOTE RECEIVED FROM DALE LA FOLLETTE OF PIR TO RELAY TO ALL INTERESTED IN RACING

This article was in Autoweek for the week ending May 20th, 1977.

"Sources at ACCUS and the National Motorsports Committee. . . have told some Senators and Representatives were "swamped with mail" calling for the abolition of racing as an unnecessary waster of energy. Although ACCUS and the MSC have taken no official position yet, Autoweek's sources argue that the predicted legislation is a real threat to the future of racing in this country. They urge that enthusiasts write to their legislators and let them know of their interest in racing, and ask that any state or local legislation be reported to the National Motorsports Committee of ACCUS, Suite 302, 1725 K Street, N.W. Washington, D.C. 20006."
