RE: Double Race Weekends - RESPOND BY DECEMBER 24

The ICSCC Executive Board would like the input of Conference drivers, through the Contest Board, on the issue of "double race weekends."

Last season, the Executive Board allowed NWMS to hold a double race event at Deer Park Raceway on an experimental basis. The issue of continuing to sanction double race weekends has now come before the Executive Board. The Board would like the recommendation of the drivers on these issues, through the Contest Board.

Please take the following questions to your club's drivers. To be considered at the January Executive Board meeting when the 1983 race schedule will be finalized, return this form by December 24 to:

Ed Howell, 1409 Evergreen Pl., Tacoma, WA 98466

Check (✓) one response to each question below.
Feel free to include any additional comments
that explain your club's views.

1. With regard to "double race weekends" sanctioned as part of the ICSCC Championship series (practice, qualifying and races on Saturday, and again on Sunday) should ICSCC:
 - A. Amend ICSCC regulations to freely allow for such events (subject to the Executive Board's normal approval of the season's race schedule)?
 - B. Have the Executive Board waive regulations on a case-by-case basis to allow such events?
 - C. Not allow such events as part of the Championship series under any conditions?

(Note: Even if your club indicates "C" above, please respond to the rest of the questions to express your club's preference in case such events are allowed.)
